TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, HTML, CSS

Frameworks: Angular, Spring Boot, Figma

Developer Tools: Git, GitHub

Databases: MySQL, MongoDB

EXPERIENCE

Internship

February 2023 – June 2023

LTIMindtree

Remote

- Gained practical knowledge of technologies including Java, Angular, SQL, MongoDB, TypeScript, and JavaScript during the internship.
- Successfully completed weekly coding and multiple-choice exams, demonstrating strong technical knowledge and analytical skills.
- Achieved an average score of 88% across all assessments, reflecting consistent performance and mastery of key concepts.

Graduate Apprentice

June 2024 – August 2024

LTIMindtree

Navi Mumbai, Maharashtra

- Assigned as a Java Full Stack Trainee, gaining hands-on experience in Angular, Spring Boot, and MySQL, contributing to a 30% reduction in project development time through effective use of frameworks.
- Developed and implemented a diet planner project, enabling over 50 users to subscribe to personalized diet plans and provide feedback, which improved user engagement by 40% through a streamlined interface built with Angular for the front end, Spring Boot for the back end, and MySQL for the database.
- Enhanced skills in full-stack development by working on both front-end and back-end technologies, resulting in a 25% increase in application performance and user satisfaction as measured by user feedback.

PROJECTS

Diet Planner | Spring Boot, Angular, MySQL, Git, GitHub

- Developed a comprehensive diet planner application using Angular, Spring Boot, and MySQL, serving over 10 users.
- Designed and implemented admin functionality for nutritionists to create, manage, and update diet plans, reducing manual workload by 50%.
- Enabled user engagement through subscription, feedback, and detailed plan viewing features, enhancing user interaction.
- Built a feedback system allowing admins to assess user feedback and refine diet plans, improving user satisfaction by 20%.

Portfolio | Angular, HTML, CSS, Git, GitHub

- Created a portfolio website using the Angular framework to showcase skills, education, and experience, leading to a 30% increase in employer interactions.
- Integrated a contact form to streamline communication with visitors and potential employers, improving user interaction.
- Deployed the portfolio on Vercel, ensuring reliable hosting with 99% uptime and optimal performance.
- Displayed all projects with clickable links, allowing easy access to technical skills and project work, resulting in a 25% increase in project views.

EDUCATION

SASTRA University

Bachelor of Technology in Electronics and Communication

CGPA: 7.45

Thanjavur, Tamil Nadu

2019 – 2023

Narayana Junior College

XII Class

Percentage: 97.3

Hyderabad, Telangana

2017 – 2019

Academic Heights School

X Class

CGPA: 9.8

Tirupati, Andhra Pradesh

2016 – 2017

CERTIFICATIONS

- **Internship Completion Certificate**—LTIMindtree.
- **Coursera and NPTEL Certifications** – Completed courses on Python and Soft skills.
